## MANAGEMENT'S PERCEPTION OF RISK FACTORS

The Company believes that the following factors may affect its ability to fulfil its obligations in respect of the Debentures. All of these factors are contingencies which may or may not occur and the Company is not in a position to express a view on the likelihood of any such contingency occurring. The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures, but the inability of the Company, as the case may be, to pay principal or other amounts on or in connection with any Debentures may occur for other reasons and the Company does not represent that the statements below regarding the risks of holding any Debentures are exhaustive. Potential investors should perform their own independent investigation of the financial condition and affairs of the Company, and their own appraisal of the creditworthiness of the Company. Potential investors should consult their own financial, legal, tax and other professional advisors as to the risks and investment considerations with respect to the Debentures. Potential investors should thereafter reach their own views prior to making any investment decision.

### CREDIT RISK

Potential investors should be aware that receipt of the Redemption Payment and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Issuer. Potential investors assume the risk that the Issuer will not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Issuer, the payment of sums due on the Debentures may not be made or may be substantially reduced or delayed.

### THE SECONDARY MARKET FOR DEBENTURES MAY BE ILLIQUID

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Potential investors may have to hold the Debentures until redemption to realize any value.

### RATING AGENCIES MAY DOWNGRADE THE CREDIT RATING ASSIGNED TO THE ISSUE OR THE DEBENTURES

The Rating Agencies have assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agencies may downgrade the rating of the Debentures or rating of the Company. In such cases, potential investors may incur losses on revaluation of their investment or make provisions towards sub-standard/ non-performing investment as per their usual norms.

### TAX CONSIDERATIONS AND LEGAL CONSIDERATIONS

Special tax considerations and legal considerations may apply to certain types of investors. Potential investors are urged to consult with their own financial, legal, tax and other advisors to determine any financial, legal, tax and other implications of this investment.

### ACCOUNTING CONSIDERATIONS

Special accounting considerations may apply to certain types of taxpayers. Potential investors are urged to consult with their own accounting advisors to determine implications of this investment.

### MATERIAL CHANGES IN REGULATIONS TO WHICH THE ISSUER IS SUBJECT COULD IMPAIR THE ISSUER'S ABILITY TO MEET PAYMENT OR OTHER OBLIGATIONS

The Issuer is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. Any changes in the regulatory framework could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

### LEGALITY OF PURCHASE

Potential investors of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that potential investor with any law, regulation or regulatory policy applicable to it.

### POLITICAL AND ECONOMIC RISK IN INDIA

The Issuer operates only within India and, accordingly, all of its revenues are derived from the domestic market. As a result, it is highly dependent on prevailing economic conditions in India and its results of operations are significantly affected by factors influencing the Indian economy. An uncertain economic situation, in India and globally, could result in a further slowdown in economic growth, investment and consumption. A slowdown in the

rate of growth in the Indian economy could result in lower demand for credit and other financial products and services and higher defaults. Any slowdown in the growth or negative growth of sectors where the Issuer has a relatively higher exposure could adversely impact its performance. Any such slowdown could adversely affect its business, prospects, results of operations and financial condition.

## RISKS RELATED TO THE BUSINESS OF THE ISSUER

(a) **The financial performance of the Company is vulnerable to interest rate volatility**

The profitability of the Company is mainly dependent on the net interest margins. The Company borrows both in floating and fixed interest rates. The Company is exposed to interest rate risks since the disbursements are generally made in fixed interest rates. Volatility in interest rates can materially and adversely affect our financial performance and cash flows. In a rising interest rate environment, if the yield on the interest-earning assets of the Company does not increase simultaneously with or to the same extent as cost of funds, or, in a declining interest rate environment, if the cost of funds does not decline simultaneously or to the same extent as the yield on our interest-earning assets, our net interest income and net interest margin would be adversely impacted.

Interest rates are highly sensitive and fluctuations thereof are dependent upon many factors which are beyond our control, including the monetary policies of the RBI, de-regulation of the financial services sector in India, domestic and international economic and political conditions, inflation and other factors. Rise in inflation, and consequent changes in Bank rates, Repo rates and Reverse Repo rates by the RBI has led to an increase in interest rates on loans provided by banks and financial institutions, and market interest rates in India have been volatile in recent periods.

(b) **If the Company is unable to control the level of non-performing loans (“NPAs”) in the future, or if the loan loss reserves are insufficient to cover future loan losses, the financial condition of the issuer and results of operations may be materially and adversely affected.**

Non-performing or low credit quality loans can negatively impact the operations of the Company. As of September 30, 2020, the summary of Assets under Management is as under:

Asset Classification	Loans & advances Outstanding (INR in Crores)	%
Standard Assets –AUM	25,039	95.6
Gross Non-Performing Assets	1,156	4.4
<b>Total</b>	<b>26,195</b>	<b>100.0</b>

We cannot be sure that we will be able to improve our collections and recoveries in relation to our NPAs, or otherwise adequately control our level of NPAs in future. Moreover, as our loan portfolio matures, we may experience greater defaults in principal and/or interest repayments. Thus, if we are not able to control or reduce our level of NPAs, the overall quality of our loan portfolio may deteriorate and our results of operations and/or cash flows may be adversely affected. Furthermore, our current provisions may not be adequate when compared to the loan portfolios of other financial institutions. Moreover, there also can be no assurance that there will be no further deterioration in our provisioning coverage as a percentage of Gross NPAs or otherwise, or that the percentage of NPAs that we will be able to recover will be similar to our past experience of recoveries of NPAs. In the event of any further deterioration in our NPA portfolio, there could be an even greater, adverse impact on our results of operations and/or cash flows.

(c) **We may not be able to recover, on a timely basis or at all, the full value of collateral or amounts which are sufficient to cover the outstanding amounts due under defaulted loans.**

As a security interest for the financing facilities provided by us to our customers, the vehicles purchased by our customers are hypothecated in our favour. The value of the vehicle, however, is subject to depreciation, deterioration, and/or reduction in value on account of other extraneous reasons, over the course of time. Consequently, the realizable value of the collateral for the credit facility provided by us, when liquidated, may be lower than the outstanding loan from such customers. Any default in repayment of the outstanding credit obligations by our customers may expose us to losses. Furthermore, in the case of a default, we typically repossess the commercial vehicles financed and sell such vehicles through auctions. The

hypothecated vehicles, being movable property, may be difficult to locate or seize in the event of any default by our customers. There can also be no assurance that we will be able to sell such vehicles provided as collateral at prices sufficient to cover the amounts under default. In addition, there may be delays associated with such process.

A failure or delay to recover the expected value from sale of collateral security could expose us to a potential loss. Any such losses could adversely affect our financial condition, results of operations and/or cash flows. Furthermore, enforcing our legal rights by litigating against defaulting customers is generally a slow and potentially expensive process in India. Accordingly, it may be difficult for us to recover amounts owed by defaulting customers in a timely manner or at all. The recovery of monies from defaulting customers may be further compounded by the fact that we do not generally insist on, or receive post-dated cheques as security towards the timely repayment of dues from customers to whom we have provided loans. Further if we are unable to sell any repossessed vehicles provided as security for such loans, at commercially favourable prices, in a timely manner or at all, we may not recover the costs of maintaining such repossessed vehicles and our operations, cash flows and profitability could be adversely affected.

**(d) A part of our collections are in cash and consequently we face the risk of misappropriation or fraud by our employees.**

A portion of our collections from our customers is in cash. Cash collections expose us to the risk of fraud, misappropriation or unauthorized transactions by our employees responsible for dealing with such cash collections. While we have taken insurance policies and coverage for cash in safes and in transit, and undertake measures to detect and prevent any unauthorized transaction, fraud or misappropriation by our representatives and officers, this may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our operations, profitability and/or cash flows. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transaction, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill.

**(e) Issuer requires certain statutory and regulatory approvals for conducting business and failure to obtain or retain them in a timely manner, or at all, may adversely affect operations.**

The Company is a non-deposit taking Non-Banking Financial Company ("NBFC") registered with the RBI. As such, the Company is regulated by RBI vide its Master Circular named as "Non-Banking Financial (Non - Deposit Accepting or Holding) Companies Prudential Norms (Reserve Bank) Directions, 2007". These directions were issued by Reserve bank of India on 22<sup>nd</sup> February 2007 vide notification No. DNBS.193 /DG (VL) - 2007. The provisions of these directions apply to all non-banking financial companies not accepting / holding public deposits. If the Issuer fails to comply, or a regulator claims we have not complied, with any of these conditions, its certificate of registration may be suspended or cancelled and the Issuer shall not be able to carry on such activities.

**(f) Issuer may be required to increase capital ratio or amount of loan loss reserves, which may result in changes to business and accounting practices that would harm business and results of operations.**

The Issuer is subject to the RBI minimum capital to risk weighted assets ratio regulations. Pursuant to Section 45 -IC of the RBI Act, every NBFC is required to create a reserve fund and transfer thereto a sum not less than 20.0% of its net profit every year, as disclosed in the profit and loss account and before any dividend is declared. The Issuer is also required to maintain a minimum capital adequacy ratio of 15.0% in relation to aggregate risk-weighted assets and risk adjusted assigned loans.

The RBI may also in the future require compliance with other financial ratios and standards. Compliance with such regulatory requirements in the future may require alteration of its business and accounting practices or take other actions that could materially harm its business and operating results.

**INDEPENDENT AUDITORS' REVIEW REPORT ON REVIEW OF INTERIM FINANCIAL RESULTS**

**TO THE BOARD OF DIRECTORS OF**

**HINDUJA LEYLAND FINANCE LIMITED**

1. We have reviewed the accompanying Statement of Unaudited Financial Results of **HINDUJA LEYLAND FINANCE LIMITED** (the "Company"), for the half year ended September 30, 2020 (the "Statement"), being submitted by the Company pursuant to the requirement of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.
2. This Statement, which is the responsibility of the Company's Management and approved by the Company's Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard 34 "Interim Financial Reporting" ("Ind AS 34"), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder and other accounting principles generally accepted in India. Our responsibility is to express a conclusion on the Statement based on our review.
3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', issued by the Institute of Chartered Accountants of India (ICAI). A review of interim financial information consists of making inquiries, primarily of the Company's personnel responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing specified under section 143(10) of the Companies Act, 2013 and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
4. Based on our review conducted as stated in paragraph 3 above, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.
5. We draw attention to Note 6 to the financial results, which describes that the potential impact of the COVID-19 Pandemic on the Company's results are dependent on future developments, which are highly uncertain. Our conclusion is not modified in respect of this matter.
